Member Name Search Enhancements in Xpress Teller and Inquiry

Learn more: [online help](#)

As part of our ongoing efforts to improve and fine-tune the new search methods within Xpress Teller and Member Inquiry, as well as work out some issues that users experience while searching for member names, this release will change how the search works for both Xpress Teller and Member Inquiry. The key change is that **the screen now has two search input fields** instead of just one: one for use when searching for a member name, and a second one when

searching for anything else. That way we can greatly simplify the technique for finding names, but keep the flexibility (and smaller screen footprint) for other search criteria.

Search for Active Members

Account base

Search for name Include **Both**

Other search Advanced Search *Settings have been changed

For the name search, we've added a drop-down on the search screen for including individuals, organizations, or both. So if you're looking for an individual person's name, you can exclude organizations with similar words, further reducing the number of hits.

Session 3 CU*BASE GOLD - Advanced Search

Search for name Include **Both**

Search for other

Search in:

| | | | | |
|-------------------------------------|--|--|---|--|
| <input type="checkbox"/> Account # | <input type="checkbox"/> ATM/Debit/Credit card # | <input type="checkbox"/> DBA name | <input type="checkbox"/> Driver's license | <input type="checkbox"/> Email address |
| <input type="checkbox"/> Employee # | <input type="checkbox"/> Online banking username | <input type="checkbox"/> OTB account # | <input type="checkbox"/> Phone # | |
| <input type="checkbox"/> Reference | <input type="checkbox"/> SSN/TIN | <input type="checkbox"/> Phone # | | |

PR (7167)

Session 2 CU*BASE GOLD

Home Page Preferences Member Global Search Preferences

For global search, use my preferences in place of defaults

Include in name searches Individuals only Organizations only Both

Include for other searches

| | | | |
|--|--|--|---|
| <input type="checkbox"/> Account # | <input type="checkbox"/> ATM/Debit/Credit card # | <input type="checkbox"/> DBA name | <input type="checkbox"/> Driver's license |
| <input type="checkbox"/> Email address | <input type="checkbox"/> Employee # | <input type="checkbox"/> Online banking username | <input type="checkbox"/> OTB account # |
| <input type="checkbox"/> Reference | <input type="checkbox"/> SSN/TIN | <input type="checkbox"/> Phone # | |

Organize Favorites FR (6179)

We've also expanded the existing Preferences feature available on the CU*BASE home page to allow each employee to define how they'd like their default searches to behave, reducing the need to use the Advanced Search button for every search.

We have high hopes for this new technique, that it will give us the best of both worlds – a flexible engine that can expand and adapt in the future, while still making it easy for your employees to find members quickly and effectively.

Your feedback has been invaluable for helping us refine and enhance this new engine, so please keep it up! Use the "Leave a Comment" feature on the Kitchen page (<https://www.cuanswers.com/resources/kitchen/building-a-new-search-engine/>) and let us know what you think.

Lending

1Click Loan Offers via "It's Me 247" for Unsecured Loans and LOCs (and Include an Optional Online Form Too)!

Learn more: 1Click Offers: My Loans/My Way booklet, and Overview: 1Click Offers in [online help](#)

ZOEY, You've been approved!

Not just pre-approved... you can borrow up to \$500.00 right now based on your membership status!

Not Now **View**

Looking for new ways to expand your loan portfolio? With this release we are expanding the **1Click Offers** feature to include other types of unsecured loans, for example a \$500 holiday loan or pay day alternative. And, as icing on the cake, we're also adding the ability to optionally attach a form to the offer for the member to e-sign. Are you using this new approach that ties your lending team, smart analytics, and computer-closed-loans (no employee needed) into your lending solutions?

Instead of waiting for your member to apply, you can offer pre-approved, guaranteed loan accounts to targeted members via **It's Me 247**. Take away your member's doubts about borrowing success and start guaranteeing funding with this smart Internet Retailer approach. All the member needs to do is click to accept the offer in order for the account to be opened and funds to be available.

Congrats, You're Approved!

Your 1Click Loan Offer

| | |
|-----------------|------------|
| \$8,000.00 | |
| Loan Amount | |
| Loan Rate | 15.682% |
| Loan Terms | 120 Months |
| Monthly Payment | \$132.43 |
| First Due Date | 12/2/2021 |

Deposit Account
Select an eligible account where you would like these loan funds deposited:

Select an Account...

I have read the [Terms & Conditions](#) of this offer and agree to the above terms.

[Maybe Later](#) [Decline](#) [Accept Offer](#)

There is no application, no credit report pull, and no underwriting. You just make the offer to members you've already qualified. Then after clicking "Accept Offer" members will see a new loan in their account list and can start using the funds instantly! (If a form is attached, they will first sign the form electronically without leaving online banking.)

INNOVATIONS

View Or Sign Your Documents

One or more documents that you need to view or sign. Once you've completed all steps, you can download a copy for your own records. And don't worry, all documents can be reviewed before signing.

All Additional Signer Credit Bureau Codes Now Available

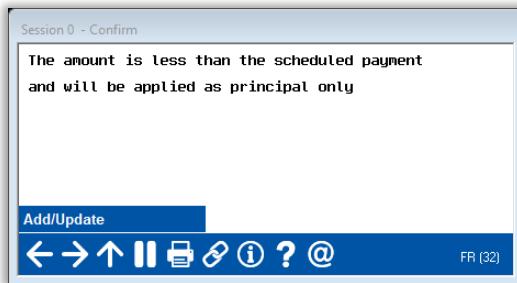

Learn more: [online help](#)

Now when linking credit bureau data to an additional signer using **Tool #51 Miscellaneous Loan Maintenance**, all credit bureau codes will display as expected to better match to the primary borrower.

New Confirmation Message for 360 Mortgage Transfers

Learn more: [online help](#)

This new confirmation screen has been added to the workflow when using Phone Operator to set up an incoming A2A transfer to a 360-type mortgage. This message will appear when the transfer amount is less than the scheduled payment to remind staff that the payment will be made as principal only. Because this payment will actually come in later as an ACH payment, this confirmation step should be used as the opportunity to inform the member or staff of what will happen when the payment actually arrives.

Back Office

Accounts Payable Vendors Now Includes “Jump to Vendor #”

Learn more: [online help](#)

Thank you to Notre Dame Federal Credit Union for submitting this idea!

When using **Tool #990 Work with Accounts Payable Vendors**, the *Jump to vendor #* search field has been updated to allow the input in that field to call a list of vendors, instead of *only* that vendor number in the results.

Updated 5300 Call Report Account Code Online Help

Learn more: [online help](#)

As part of the ongoing efforts to transition our documentation to a new format, with this release the 5300 Call Report Account Code online help will be updated in design. The online help will work just the same, with each account code within the Call Report tools allowing an access point to read the associated help topic. However, after December 6, 2021, the URLs will be accessed via the updated address <https://help.cubase.org/5300/content/home.htm>, replacing “home” with each account code as you’ll see in the web address bar. We look forward to announcing further online help updates in the coming weeks.

Data Analyst

Online Banking Optics: Lite Version Updated for SLO/MLO

Learn more: [online help](#)

Tool #1100 Online Banking Optics: Lite has been updated to reflect the switch to the updated online banking approach, allowing users to choose their data points to analyze between personal banking, multi-logon or single-logon business banking, or all of the above. This change coincides with the updates that have occurred, and updates planned in the future, to the business banking product, **BizLink 247**, as well as the eventual introduction of **MyBIZ**, our newest single-login personal business banking product, coming next spring.

EFT

Card Details Now Available in Additional Transaction Information

[Learn more: online help](#)

the information regarding merchant category code, card present, last 4 digits of card #, ISO sequence #, Pinless PIN, Smart ATM cash-only deposit, and recurring card transaction notation. Moving these fields from the working, and not accessible to users, ISO files and beginning to track these fields in the transaction files means that this data became available and ready to analyze and act upon.

Now, in this release, the details will be displayed on screens for users! For both ATM/debit and credit card transactions, the pieces listed above will be available for view when selecting to view the additional transaction information. Additionally, the transaction origin code, description, and offset G/L account have been added to the transaction inquiry screens (the offset G/L account will appear for all transactions except for origin 01 teller posting).

END
