Studying ANR/NSF Fees

- ▶ Ideas people are tossing around:
 - ▶ Database changes to identify ANR vs. ODP used in authorizations?
 - ▶ Disclose to member via push notifications when ANR limits were used?
 - ▶ More balance details stored in hold records?
 - ▶ Wait to charge fees (daily monitoring vs. real-time)?
 - ▶ More granularity for NSF fee options?
- ▶ Bottom line: it's a moving target, so we're studying
 - ▶ There's no "solution" or silver bullet yet
 - ▶ Disclosures need to match what you do
- ▶ Are you getting creative with what you already have?

If your auditor asks...

- ▶ What is a “junk fee” anyway?
- ▶ CU*BASE has no such thing, so how do we identify how you translate this consistently?
- ▶ How good is your data governance?
- ▶ Don't forget about Tool #906 Update NSF Stats/Reg DD Fees
 - ▶ Are you adjusting for refunds?
